

Momee Friends of Long Island DIY Costumes 2017

Segment 1- Popular Social Costumes

Elizabeth Hashagen and Anne Caminiti (Momee Friends of Long Island) show you how to make your own costumes with items around your home and that are inexpensive to create.

1. Elizabeth and Anne are dressed as an Oreo which makes a great best friend, sibling or couples costume. Made out of Black Foam Board the Oreo itself is easy to make.
2. Moana is a popular costume this year and with some paint, scissors and hot glue this no-sew costume can be created. The Oar is made out of a cardboard wrapping paper roll and a piece of cardboard which means it costs almost nothing to make since these items would be in your recycle bin.
3. The Social Butterfly Costume is perfect for those who love their social media apps on their phone. This social butterfly has her favorite apps on her tulle skirt including the News 12 app.
4. The Snapchat Costume is easily created with a yellow t-shirt and felt. The butterfly crown was made out of floral wire and butterflies found at the dollar store. A perfect costume for those who love this popular app on their phone.
5. Pac Man, Mrs. Pac Man and the three ghosts are a great group costume made with t-shirts and foam pieces. Just by cutting a few simple shapes out of foam board and having an adult use a hot glue gun to glue the pieces on the shirt you have five costumes that can be created in no time.
6. The Fidget Spinner Costume that really SPINS! Yes, it spins. By making the fidget spinner shape out of poster board and using a paper fastener you can get these fidget spinners moving on your t-shirt or hat and you can even create a fidget spinner bracelet. This is a super fun, interactive and inexpensive costume you can create.

**** Some of these costumes require using a Hot Glue Gun please make sure an adult uses the Hot Glue Gun when creating the costumes. The Hot Glue gets very hot and can cause serious burns if a child uses it. ****
