

Momee Friends of Long Island DIY Costumes 2017

Segment 3- Aluminum Foil/ Aluminum Pan Costumes

Elizabeth Hashagen and Anne Caminiti (Momee Friends of Long Island) show you how to make your own costumes with items around your home and that are inexpensive to create.

1. Salt and Pepper is what Elizabeth and Anne are dressed as for a last-minute best friend, sibling or couples costume. Using an aluminum cake pan for the hat which is glued onto a headband with either white circles or black circles to differentiate between the salt and the pepper this costume is so simple to create. Safety Pin a white P made out of felt on a Black shirt for Pepper and a black S made out of felt on a white shirt and your costumes are complete.
2. This Astronaut Costume is so fun to create and looks good on. First have your child dress in a grey long sleeve shirt and grey sweat pants then wrap your child's bike helmet, knee pads and elbow pads in aluminum foil and add an American flag to the helmet. Using a cereal box and 2 water bottles wrapped in aluminum foil with a couple of other crafting supplies you can create the rocket jet pack. This adorable costume can be created using items you already have and will not ruin the items used.
3. An Alien Costume with an aluminum foil UFO. Using Poster board and Aluminum Foil your UFO can be created. Add the accessories such a bright colored gloves, Saturn Pin and headband with pipe cleaner eyes and your adorable costume will be complete.
 - The Astronaut and Alien Costume can be a cute sibling and or couples costume idea.
4. The Hershey Kiss costume is made just out of poster board and aluminum foil. The hat is an aluminum foil covered military kids hat found at the dollar store with a white streamer attached. Simple and Sweet!
5. This Viking costume was created using just cardboard and aluminum foil. A fun costume idea for a boy or girl.
6. Bath Time Costume is a "tub" made out of poster board and aluminum foil with white balloons attached to look like bubbles. By wearing a shower cap, holding a long scrubber and adding a couple of rubber duckies your costume is complete.
7. Ninja Turtles is a great group costume that is made simply out of roasting pans and t-shirt scraps. With the use of paints and some other crafty items your look can be completed. The weapons are made out of cardboard tubes and aluminum foil. So inexpensive and makes for great pictures.

**** Some of these costumes require using a Hot Glue Gun please make sure an adult uses the Hot Glue Gun when creating the costumes. The Hot Glue gets very hot and can cause serious burns if a child uses it. ****
